**Standing up to the oil and
gas companies.**

**Putting the safety of Delaware
County families first.**

“For years, Harrisburg party bosses have been too cozy with the oil and gas companies and their lobbyists. That’s why the companies don’t pay a dime in taxes for the gas they take out of the ground, while middle-class families still pay high property taxes. I’m standing shoulder to shoulder with my neighbors to demand more transparency and oversight in how Sunoco builds the Mariner East 2 Pipeline. **I will do everything I can to keep the pipeline shut until Sunoco proves this pipeline is exceptionally safe.**”
